## OUR LEGACY

Identified as a leading surveying company in Austria – Vermessung Kollenprat has built legacy of excellence – and continues to be recognized today as one of the most influential and precise teams of committed and experienced professionals.

Focused on guaranteed precision and reliability, **Vermessung Kollenprat's many years of experience in all these sectors make our company a strong partner for all your projects.**

## OUR COMMITMENT

Our commitment is to satisfy every customer, regardless of the size of a job. Our services include the survey and technical processing as well as the creation of concepts and the acquisition of all the official channels.

That means that you will benefit from the very beginning of your project from our experience and thus in turn will be reflected in price and duration of our engagement.

**Vermessung Kollenprat guarantees prompt handling, dedication, personal service and reliability.**

## OUR COMPANY AND TEAM

Vermessung Kollenprat, a civil engineering company based in - Klagenfurt am Wörthersee - in Carinthia (Austria) was founded in 1978. Since then we are active in the fields of **engineering surveying, cadastral surveying, expertise, geographical information systems** and **environmental studies**.

Dipl.-Ing. Kollenprat Dietrich, civil engineer, engineering consultant for surveying and court certified expert, is chairman of the Federal Section for surveying in Austria. Thanks to his political function, a consortium of currently 10 companies arose in different locations. Through this cooperation even large projects can be handled worldwide with reasonable deadlines.

Our expert team consists of qualified CAD technicians, IT specialists and surveying engineers. Thus, you will receive all necessary services from ONE single company.

**Our aim is to provide comprehensive advice and qualified, customer-oriented service. Our many years of experience make us a strong partner for your projects.**
